

Nail Finish *Reference Card*

Crème

Solid-looking colour without obvious sparkle.

Jelly

A transparent, coloured-glass-like look.

Shimmer

Fine reflective particles creating a soft glow.

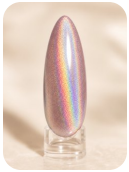

Flakie

Irregular flakes rather than uniform sparkle.

Chrome

A smooth, highly reflective or glazed effect.

Holographic

Rainbow reflections, scattered or in a band.

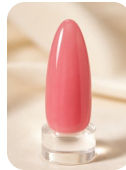

Magnetic

An effect shaped using magnet-responsive particles.

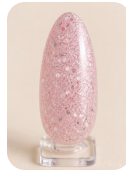

Sheer

Translucent coverage that leaves the nail visible.

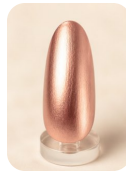

Crelly

A finish between creamy and jelly-like coverage.

Glitter

Distinct sparkling particles.

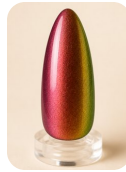

Metallic

A metal-like sheen.

Iridescent

A shifting coloured sheen, often translucent.

Multichrome

An angle-dependent shift between colours.

Matte

A surface with reduced gloss.

Record the shade, coats, layers and lighting.

Swatches are illustrations, not photographed comparisons. Finish names overlap between brands.
